Dear community member

Have you visited the Tully Nursing Home to see a loved family member or friend, or as part of a school excursion in your younger days? Many people in our community have had some connection with the Home, built in 1989 as a community owned facility. As you are all aware COVID has been challenging, increasing operating costs and impacting on our ability to fundraise.

Over the years we have been successful with government grants, but these do not target the enhancements we wish to make to the Home, hence prompting the need to reach out to the community for donations. Your generous donation could be used to update our outdoor areas with new furnishings and gardens for our residents, families, and friends to enjoy. We would also like to update the furnishings in the common lounge areas and activities lounge. Our residents like to spend time socialising, sharing activities, and pursuing creative interests with one another, so this would make their days more comfortable.

Our aim is to continue to provide an excellent community owned facility and to give our older generation the choice to reside in a facility within their community, and be close to family and friends. Your generous donation will help us achieve this.

Yours faithfully

E.A. Todd

Elizabeth Todd - President of the Board
